**If you can hear the music or the presenter through your speakers/headphones, your audio is configured properly. If you can not hear, please try the following:**

1. Adjust the volume of your computer.
2. Click on **“Meeting”** in upper left-hand corner and choose **“Audio Setup Wizard”** and move through the steps to connect for audio.
3. You may encounter a small Adobe window opening on your screen, click the **green “Allow”** button to enable your speakers or device.
4. Log out and back in if these steps do not help or review the troubleshooting tips in the login email you received this week.

**Attendees can use the Text Chat and Question box to ask questions.**

**Participant Feedback**--To the right of the microphone is icon of a person with a raised hand – click on the down arrow to see other options. When you need to clear your status click the down arrow again and go to the bottom of the list and click **“Clear Status.”** **You can use this to answer yes or no to presenter questions.**

**Troubleshooting Tips:** \*Check the main volume control for your computer to make sure it is not set low or muted. You can access this control on a Windows operating system by clicking on the Speaker icon on the lower right hand corner tray of options. \*If you continue to have trouble with the audio try to exit the meeting and log back into the meeting. \*Be sure to turn off your pop-up blocking software.

**Telephone audio is NOT provided. Attendees need to use their computer speakers or headphones to hear the audio.**
