Improve your OPAC with LibraryThing, a lot.

LibraryThing for Libraries enriches your library's online catalog with the power and fun of Library 2.0.

**Reviews.** Encourage your patrons to rate and review anything in your library, all from within your current catalog.

Share reviews with other libraries and draw from over 375,000 hand-vetted user reviews.

Blog widgets and a Facebook application allow your patrons to show off their reviews, and their love for the library where they “live” online.

**Similar books.** Patrons see recommendations everywhere and expect them in a library catalog. Integrated recommendations direct patrons to similar items in your catalog, and are designed for libraries, not bookstores.

**Tag-based discovery.** Patrons can explore your holdings in a new way, with detail-page tag clouds and a tag browser.

Tagging only works on a large scale, so we draw from the almost 60 million user tags on LibraryThing.com. All tags are hand-vetted for quality.

**Other editions and translations.** LibraryThing for Libraries ensures patrons don’t leave empty handed just because the edition they found is checked out.

- young adult fiction

**Other editions and translations**

Searching is great, but it’s not everything. Browsing a shelf provides context and invites serendipity.

Introducing Shelf Browse from LibraryThing.
Browse your library’s shelves visually, just as you would do in the physical library.

Shelf Browse lets your patrons see where a book sits on your actual shelves, and what’s near it.

It includes a “mini-browser” (not pictured) that sits on your detail pages, and a full-screen version, launched from the detail page.

Shelf Browse is available now—alone, or together with other LibraryThing for Libraries enhancements, like reviews, recommendations and tags. Installation is easy and permits extensive customization.

Bowker is now the exclusive distributor of LibraryThing for Libraries.

For more information, contact Peder Christensen toll-free at 877-340-2400 or email Peder.Christensen@bowker.com.

BRING YOUR SHELF ALIVE!
Library Anywhere from LibraryThing

A mobile catalog for any library, up and running in minutes.

Mobile web and apps for iPhone, Blackberry and Android.

Cheaper than you’d guess.

- A web version of your catalog, optimized for mobile devices.
- Native applications for all major phones.
- Showcase hours, branches and events.
- Works with 90% of current OPACs.
- No installation process.
- Comes with an “accessibility version” that provides a fully ADA/Section 508-compliant version of your existing catalog.

For more information or to become one of the first libraries using Library Anywhere contact abby@librarything.com.
