Section 1194.25 Self-Contained, Closed Products	Not Applicable
Section 1194.26 Desktop and Portable Computers	Not Applicable
Section 1194.31 Functional Performance Criteria	Not Applicable
Section 1194.41 Information, Documentation and Support	Not Applicable

Section 1194.22 Web-based Internet Information and Applications

Criteria	Conformance Level	Remarks and Explanations
1194.22(a) *A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).*	Supports with Exceptions	- The **eReader** for *Fairchild Books* provides a text overlay such that a Screen Reader can read text on a page of a book, any elements of the page that are not textual will not have a text equivalent, unless they are visible in the PDF **Table of Contents** expand and collapse feature has no text equivalent **My Content** expand and collapse feature has no text equivalent **Visual Flashcards** cannot provide a text equivalent, they depend on the user being able to see the image that is **Visual Flashcard** **Gallery images** always have a text equivalent - The icons and drop down arrow for the primary **Search** box have no alternative text
1194.22(b) *Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.*	Not Applicable	No alternatives are provided for multimedia presentations
1194.22(c) *Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.*	Supports with Exceptions	- The *highlighter* in the **eReader** can be used to highlight areas of pages, no text or markup alternative is provided - Markers on **Timelines** use light grey and translucent images to indicate items that are not in a selected chapter **Hit Highlighting** uses colour and emphasis, without colour emphasis is still present. **Statuses** and **Tags** are presented as text and black-and-white icons.
1194.22(d)	Supports with	Markup uses semantically accurate components and without CSS pages

Documents shall be organized so they are readable without requiring an associated style sheet.	Exceptions	are organised as one would logically read them. ● **Video Flashcards** and **Flashcards** are organised appropriately, but answers are presented instantly without CSS. However a downloadable alternative is available for **Flashcards**. ● Feature to email results of a **Quiz** or **Video Quiz** is organised before the Quiz itself.
1194.22(e) *Redundant text links shall be provided for each active region of a server-side image map.*	Not Applicable	There are no server-side image maps
1194.22(f) *Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape*	Not Applicable	There are no client-side image maps
1194.22(g) *Row and column headers shall be identified for data tables.*	Supports with Exceptions	● Tables in the **eReader** for *Fairchild Books* do not identify row or column headings, however the original PDF is provided as an alternative ● Subscription books identify row and column headings
1194.22(h) *Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.*	Does not Support	No markup is explicitly provided to associate data cells to header cells. However Screen readers will cope with this for basic table structures. This will only be problematic when complex tables are read by Screen Readers, this includes tables with two or more logical levels of row or column headers. The vast majority of tables in **Bloomsbury Fashion Central** are basic tables.
1194.22(i) *Frames shall be titled with text that facilitates frame identification and*	Supports	iframes are used in **Bloomsbury Fashion Central**, these frames are never empty, and titles are always provided. ● Recaptcha is embedded using iframes

navigation.		● YouTube videos are embedded using iframes
1194.22(j) *Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.*	Supports	Subject to any Videos provided by Bloomsbury also meeting this Criteria.
1194.22(k) *A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.*	Does not Support	● **Timelines** do not provide all information such that it can be understood by a Screen Reader, and there is no text only equivalent. ● It is not possible for the **Visual Flashcards** to be provide as a text alternative ● **Video Quizzes** do not offer a text-alternative, and do not include transcripts.
1194.22(l) *When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by assistive technology.*	Supports with Exceptions	● The player for all multimedia supports keyboard navigation ● The controls of the player may not be recognised by all Screen Readers ● The **eReader** for *Fairchild Books* supports keyboard navigation ● Not all simulated dialogues take focus, this means these dialogue will not be brought to the attention of an assistive technology ● Not all functionality is available without JavaScript ● The **eReader** for *Fairchild Books* does not inform assistive technology of page turns ● In the primary navigation, **Browse**, **Timeline**, and **My Content** cannot be accessed through the keyboard ● Not all items in the **Table of Contents** can be accessed using the keyboard
1194.22(m) *When a web page requires that an applet,*	Supports	● The player for all multimedia renders using HTML5 ● Browsers that do not support HTML5 or JavaScript will use a FLASH player

plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).		for all multimedia - if the FLASH player is not installed or is too old a version, the user is provided with a link to the plugin
1194.22(n) *When electronic forms are designed to be completed on-line, the form shall allow people using assistive technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.*	Supports with Exceptions	● CAPTCHA (used on some forms) does not provide an audio alternative
1194.22(o) *A method shall be provided that permits users to skip repetitive navigation links.*	Supports with Exceptions	● Skip to content link provided in main navigation ● ARIA Roles describe semantic information about elements in every page. This enables the ability to skip repetitive navigation links for Screen Readers, and some browsers. ● Only main navigation can be skipped, other repetitive navigation cannot be skipped, for example Book **Table of Contents**
1194.22(p) *When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.*	Not Applicable	There are no required responses within a timed limit
