May 2, 2018

14:15:05   From MCLS Meetings : View our Meeting & Event Code of Conduct here:
              https://www.mcls.org/training-events/pricing-policies/
14:42:14   From MCLS Meetings : We'll get started right at 2pm!
14:57:00   From MCLS Meetings : Unless you're Eastern time, then we'll get started at 3pm!
14:58:09   From Emily Flynn (OhioLINK) : Is there sound currently?
14:58:22   From Dejah Rubel : yping
14:58:34   From Dejah Rubel : typing
14:58:39   From MCLS Meetings : Hi Emily, yes, we've just had some talking, not too much. I will do a
              sound check right now
14:59:03   From walsh-allis : yes
14:59:09   From Andrew Teeple - Lake County (IN) Public Library : yes, I can hear
14:59:13   From jeffpenka : check
14:59:14   From Molly Mrozowski : Yes
14:59:21   From Beth Johns : I hear you. :)
14:59:26   From Emily Flynn (OhioLINK) : I'm not getting anything. Troubleshooting on our side...
14:59:26   From Alison Greenlee : Yes!
14:59:30   From andreak : I can hear you
14:59:32   From abarnard : Yes
14:59:37   From Lauri McIntosh : I can hear
15:00:27   From Emily Flynn (OhioLINK) : There! We can hear now.
15:18:37   From Jan Davidson : Yes, Jennifer, we can!
15:23:20   From Dejah Rubel : Has NACO considered using blockchain to decentralize the authority record
              creation process?
15:23:49   From Beth Johns : For those of us non-catalogers/metadata people -- what is NACO?
15:24:28   From Debbi Schaubman : Name Authority Cooperative Program (from LC)
15:25:05   From Beth Johns : thanks Debbi!
15:26:25   From Debbi Schaubman : i love that quote
15:46:19   From Aaron Smith : How has OCLC been engaged in this work thus far?
15:47:08   From Maurine McCourry : Hi, Jenn! Could you talk a little more about how NACO might
              broaden things out to get more people involved in authority work?
15:47:40   From jeffpenka : We do have Oclc numbers as a key identifier set in the network and have
              worked with OCLC through BIBFRAME and a number of other activities for the Library.Link
              Network.
15:48:11   From jeffpenka : And on the schema.org work.
15:48:46   From Aaron Smith : It seems logical that the same kind of reciprocal data exchanged when
              setting holdings in OCLC might be utilized on the linked data front.
15:48:54   From jeffpenka : http://viaf.org/
15:50:26   From jeffpenka : http://link.houstonlibrary.org/resource/_lOLBifYvIs/
15:51:34   From Maurine McCourry : Right. I trust NACO, but NACO will have to be able to produce things
              a lot faster if this is all going to work, which means a lot more people will have to be trusted.
15:51:46   From Maurine McCourry : :)
15:55:36   From Maurine McCourry : Jeff, what's your estimate for how long until MeLCat data is showing
              up in Google?
15:56:00   From Dejah Rubel : Good one, Maurine.
15:58:30   From Lise : are these being recorded? would like to rewatch; still trying to absorb

15:59:14	From Lise : thanks
15:59:31	From Debbi Schaubman : thanks pam and andrea!
15:59:41	From Emily Flynn (OhioLINK) : Thanks everyone!
15:59:41	From Beth Johns : Thank you.
15:59:50	From Andrew Teeple - Lake County (IN) Public Library : Thanks, everyone! This was helpful!
16:00:01	From Dejah Rubel : Thank you!
16:00:11	From Maurine McCourry : Thanks!
16:00:12	From Lizzy Baus : Thanks all!
16:00:13	From Anna Sayers : Thank you
16:00:14	From Jennifer Liss : Thanks, everyone!
16:00:40	From Aaron Smith : Thanks, Andrea, Pam, Debbi, Jennifer, and Jeff, et al.
