

# **WALL OF SHAME**

## **2019**

Never EVER return 'Pack' library materials unpackaged.

Always use proper packaging:  
bubble wrap envelopes or small cardboard boxes.

Use shipping labels from the RIDES label maker.

Ship returns to the correct library. In this case, 500-ZV279\_9 was not the lender nor the borrower.

Some libraries complete this portion of the paging slip.  
It is **\*NOT\*** a RIDES shipping label.

Never EVER stick your labels on another library's book.

These are packaged perfectly. No shipping labels.

All boxes must fit \*inside\* a green RIDES tote.

Use the right size rubber bands.

Do not change the shipping labels.

Do not use boxes that contained food.

\*Do\* use shipping labels. Do \*NOT\* use fiber filled bags.

A well intended thought – but do not tape anything to another library's material.

Do not over pack boxes.

Photos of different sides of the same package.  
Too many labels.

Securely attach shipping labels.

If a library name is not on the label maker, they do not participate in RIDES.

These should be returned via the US Postal Service, not RIDES.

Free stuff must still be processed per RIDES procedure.

Use proper packaging and shipping labels.

Everything must fit inside a green RIDES tote.

# DO NOT USE DUCT TAPE ON ANOTHER LIBRARY'S MATERIAL.

I can't believe that even needs to be said...

Please review the RIDES Procedures!
